■ INTRODUCTION

M/s Viva Composite Panel (P) LTD . is one of the leading manufacturers of aluminium composite panel (ACP) in India. Viva now an ISO 9001:2015 & ISO 14001:2015 & "CE" certified company was setup in 2005 at Mumbai in Maharashtra, Our manufacturing facilities are located at Umbergaon in Gujarat that features a perfect harmony of proficient workers and world class machines. The manufacturing facilities have a state-of-the-art Korean machines and has an integrated infrastructure and a talented pool of professionals operate them. The plant is equipped with all safety measures as well as solar power to ensure uninterrupted production. A state of test lab is also operational. The in-house testing labs ensure highest quality & precise specification.

We are equipped with 6 production lines with production Capacity of 7 million sq. Mt. per annum and 2 Lakh Sq ft. per day at our plant, located at Umbergaon (Gujarat).

We have 18 Company owned Depot's in all the prime cities of India and more than 500 plus dealer's network across India, strengthening us to make our supplies reach in almost most of the regions.

We're also equipped with the best in class Color Coating Line (CCL) which helps us to develop customized shades and cater the requirement of our clients who needs a special shade for their brand identity and eliminates the chance of peel-off. Only lead-free paint is used to negate health hazards.

The fire retardant variant (fire facade) resists fire for 2 hours, doesn't lead to flash over, produces negligible smoke and zero flaming droplets.

Our products are LEED certified by the IGBC organisation which ensures environment safety.

Viva, superior quality aluminium composite panels are available in large variety with innovative ideas, an eye catching appeal. It offers unmatched quality, aesthetics, style and durability. It has good insulation and a low thermal conductivity, weather protection & is ready to use, It has a range of applications and a whole lot of multiple deployment, advantages, customers can choose as per their needs, budgets and decorative requirements.

Viva Recommend Fabrication Specification:

1. Aluminium section should be used in 2" x 2" standard size
2. Ideal panel size should be used in 2' x 2' standard size

SALIENT FEATURES:

- 100 % maintenance free.
- Saves Construction time and cost at the last stages of construction.
- Cuts out the labour with its easy fitting & faster.
- Provides sound insulation and resistant to weathering effects.
- Resistant to breakage.
- Design flexibility.
- No affected by natural gases.
- No affected by humidity & water.
- Durable to impact.
- Better salt water corrosion resistance.
- No polishing is required.
- Can be manufactured at any requested length.
- Fire safety and no toxic gases.
- Hi-tech appeal.

PANEL COMPOSITION

*Colour may vary from batch to batch $\Delta \pm 5$

Note: Viva FR Grade Aluminium Composite Panels as per fire classification DIN-4102 Class-B1 is also available with us.

TECHNICAL SPECIFICATION

| | |
